

Pi Tau Sigma

The International Mechanical Engineering Honor Society

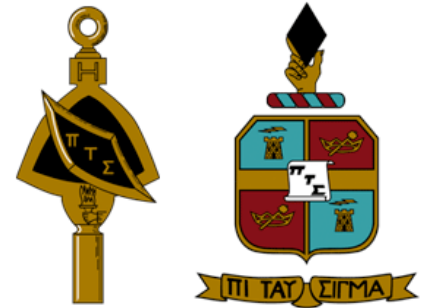

November 2013

Florida Sigma Omicron Chapter

Pi Tau Sigma is the international mechanical engineering honor society, with Florida Sigma Omicron being the local chapter established at the University of Florida.

Pi Tau Sigma members are chosen on a basis of sound engineering ability, scholarship (upper 35%), personality, and probable future success in their chosen field of mechanical engineering. There are three grades of membership: honorary, graduate, and active. Active members are selected from the junior and senior mechanical engineering classes at their respective schools whose mechanical engineering curriculum must be accredited by ABET.

Members enjoy social events such as frozen yogurt, trivia night, and sporting events. Each semester we tour an on-campus research laboratories to learn about exiting research opportunities in the field of engineering. This semester we had the chance of visiting the Experimental Stress Analysis Lab and the Center for Intelligent Machines and Robotics lab. Other events include GatorTRAX, bowling, polo sales and environmental cleaning at Hawthorne Trail.

Executive Board & Chair

President- Joanna Fulton
 Vice President- Jorge Murillo
 Treasurer- David Mercado
 Secretary- Andrew Simpson
 MAE/BEC Rep.- Leopoldo Caro
 Event Chair- Liam Doerty,
 Devin Fontane, David Tooke
 Service Chair- Thomas Stevens
 Membership Chair- Luis Castro
 Webmaster- Amy McLarty

MAE Kickball Tournament: A sporting event where MAE societies compete and the finalist play the MAE faculty. Winner takes home a shine Trophy, and other prizes.

GatorTRAX: Pi Tau Sigma members teaching kids about engineering a structure

Polo Sale: Vendor of the official MAE Department Polo
